

Reasons to choose DP Seals

the unseen advantage

A leading global manufacturer of custom precision rubber seals, gaskets and mouldings for all industries

Choosing the best partner for your project can be a key factor in its success. So when you decide we're the people for the job, what can you expect?

On time, every time

- Dedicated project management team to keep things on track
- On-line data exchange and CAD/CAM links to speed up communication
- In-house tool room for faster production
- 3-D printing of prototypes to speed up testing and quickly iron out problems

Quality without compromise

- One of the UK's first custom rubber moulding manufacturers to achieve AS 9100
- Accredited to ISO 14001, OHSAS 18001, AS 9100 and BAE systems approval
- Unique closed cavity moulding process
- Automated cryogenic cleaning systems for flashless mouldings

Specialist expertise

- In-house tool making and design advice to help solve your most difficult issues
- Unrivalled materials expertise in advanced rubber technology for extreme environments
- Pioneers in precision moulding extremely soft rubbers down to 10 Shore
- In-tool rubber-to-metal bonding

Added value, extra support

- Chemical Compatibility app to help you research rubber material suitability
- Exclusive 'Masterclass' videos and guides for invaluable advice on designing custom rubber seals and mouldings
- No obligation, expert advice from our materials technologists

Here's what a few of our customers have to say

Andy Cowell
Managing Director
Mercedes AMG

On behalf of everyone at Mercedes AMG High Performance Powertrains (HPP) and Mercedes-Benz, we would like to thank you once again for the contribution that you have made towards our success in the Formula One season.

Natasha Witcombe
Technical Procurement
Engineer
Ricoh

As someone who has been assessing suppliers for over 20 years it was quite apparent to me that DP Seals are technical experts and industry specialists. In meeting our 4M and QCDES standards it was their personal touch and attention to detail that helped set them apart.

Simon Sharp
Co-founder
Hope Technology

Off-the-shelf seals and o-rings don't always fit the bill, we often need custom components to meet specific needs, or polymer blends with very demanding characteristics. DP Seals not only delivers the highest quality backed with very sound engineering, its company ethos is very similar to our own.

Mark Limbert
Technical Director
Ridgemount
Technologies

Through the product development process DP Seals has played a vital role in delivering technical excellence and a first class product in a timely manner. Such service levels and confidence makes managing New Product Introduction relatively stress free!

Anthony Hall
Lead Engineer
Hypertac

We were extremely impressed with DP Seals' materials knowledge and manufacturing quality, and the pro-active role they took in helping us develop the solution.

Stuart Robertson
Limpet Technology

We were particularly impressed with DP Seals' responsiveness, extensive materials knowledge, engineering expertise, and their competitive pricing. They also identified opportunities to simplify our design, making it easier to manufacture without compromising performance.

Trusted by Market Leaders

For over 45 years top engineering teams across the world have been choosing us because of the innovation, quality and reliability of our parts.

BAE SYSTEMS

milkrite | InterPuls

SIEMENS

**A proven
commitment to
quality**

As a demonstration of our commitment to quality we consistently operate at an actual defective parts per million (DPPM) of below 200.

**Demonstrable
manufacturing
expertise**

Our project managers ensure budgets and capacity plans are managed efficiently and as such we have some of the best on time delivery rates in the industry, consistently operating above 98.5%

**A forward thinking
growth mindset**

As industries transform to a sustainable future, led by innovation and new technologies, DP Seals is adapting to meet any new challenges head on.

Still unsure we're the right people for you? Get in touch and we'll be more than happy to discuss any concerns you may have.
